

A wide range of Hardwood Timbers are used in the manufacture of **70mm, 100mm, 150mm, 200mm and 300mm thick mats**, but traditionally Ekki has been at the forefront due to its high strength and durability, which are a

prime requirement. For this reason it is ideal for all forms of marine work i.e. piling, sea defence, groynes, jetties, beach landings and slipways, **access roads**, decking, working platforms, **temporary bridges** and onshore drilling sites.

▲ Access to and from Wheelwash - Bedfont, Middlesex

▲ Temporary bridge for pipeline contract - Calne, Wiltshire

PIPELINE - EXCAVATOR - CRANE MATS

CRANE STABILITY ON SITE

6m - 12m x 1.2m/1.6m x 300 mm Mats - for those applications that require heavier loads to be spread, therefore reducing the ground

bearing pressure and preventing damage to existing hard surfaces or protecting underground services.

▲ 300mm Crane Mats as outrigger pads under 1000 tonne Telescopic mobile at Appledore, Devon

▲ 4m x 1.5m x 300mm Greenheart Mats under jacks supporting the Avonmouth Viaduct M5 Motorway

MAT & TIMBER SERVICES

Tel: 01264 811005

Also available: Hardwood and Softwood timbers, timber piles, access ramps, roadway

sections, temporary bridges, crane outrigger mats, crossing timbers and sleepers.

▲ Temporary access and bridges across Itchen flood plain, Southampton.

Mat & Timber Services will manufacture and supply mats of any timber and dimensions in accordance with customer specifications, and to suit all applications nationwide or overseas.

Site inspections can be carried out without any obligation to the customer and a laying and recovery service is available, if required,

utilising crane equipped vehicles manned by experienced operators.

Our yards have loading and offloading facilities, and with stocks available from strategic locations throughout the UK, our response to customer requirements can be immediate.

MEMBER OF PIPELINE INDUSTRIES GUILD

MAT & TIMBER SERVICES

A Division of Sarum Hardwood Structures Limited

Manufacturer of Timber Mats & Temporary Roadways for Hire & Sale

PIPELINE - EXCAVATOR - CRANE MATS

Mat & Timber Services, a division of Sarum Hardwood Structures Limited, are a wholly owned subsidiary of Groot Lemmer bv, Holland.

Backed by our parent company's vast experience and extensive resources, we are able to manufacture mats and temporary access roads for hire or sale throughout the UK and overseas.

3m and 5m long x 1m x 70 mm Hardwood Mats are used extensively within the Oil, Gas

and Water industries, and especially during the laying of underground pipelines across the countryside. Environmentally sensitive areas, or unstable ground conditions timber mats will cause minimum disturbance to the environment and keep all machinery and vehicles moving.

5m x 1m x 100mm, 150mm, 200mm and 300mm Hardwoods Mats for where the area may be waterlogged or particularly unstable and heavier machinery requires a firmer base from which to work off or gain access to.
